CAPITAL IMPROVEMENTS

May 27, 2026

Dear Valued Customers,

Water District #7 is pleased to announce that we have been awarded low-interest loans from the Washington State Public Works Assistance Account. Administered by the Public Works Board, these funds will support critical infrastructure improvements designed to serve our community for decades to come. By replacing aging infrastructure and reducing ongoing maintenance costs, these projects will provide long-term savings for our customers.

Project Scope and Schedule: Construction is scheduled to begin June 1, 2026, with an estimated completion date of September 30, 2026. Work will take place in the following areas:

- Along the east edge of Toad Lake Road (from Hillsdale to Academy)
- Along the north edge of Academy Road (from Toad Lake Road to approximately 1948 Academy)

What to Expect During Construction:

- Traffic: Please expect single-lane traffic in work zones during most of the construction period.
- Service Interruptions: You will be notified in advance of any planned water outages. These typically occur toward the end of the project when we connect the new mains to the existing system and transfer individual service lines.
- Updates: We will post progress reports and project news regularly at www.waterdistrict7.com.

Project Investment Summary

- Academy Road: \$969,838.85
- Toad Lake Road: \$877,506.82

Thank you for your patience as we work to improve the reliability of our community's water system.

Respectfully,

Your Board of Commissioners

Mark Lann, George Kaas, and Tessa Ebbesen
